

For Immediate Release

REPLAYTV INTRODUCES "PERSONAL HD" SOLUTION FOR THE PC WITH HDTV, MULTI-TUNER AND IPOD SUPPORT

- "Personal HD" To Be Demonstrated at Pepcom Holiday Spectacular on
September 19th in NYC. -

New York, September 19, 2007 — ReplayTV[®], the pioneer of personalized digital video recording, today announced its new "Personal HD" all-in-one solution for the PC with HDTV, multi-tuner, and iPod[®] support.

Bringing hardware & software together to give consumers a living room quality DVR experience on their PCs, "Personal HD" goes the extra mile and easily makes shows "Good-to-Go." With ReplayTV Personal HD, shows can be taken on the road to watch on Apple iPhone[™], video iPod, iPod nano, iPod touch, iPod classic and other portable devices. Additionally, shows can easily be streamed over Apple TV[™].

ReplayTV's popular DVR technology lets you pause live TV, rewind, skip ahead, find and record all your favorite shows on your PC with living room quality ease and reliability. Sit back with the included remote control, or lean forward with your mouse or keyboard.

"Customers are going to be thrilled with the new ReplayTV Personal HD," said David Riley, Director of Marketing at ReplayTV. "You can now take your shows with you on the new iPod nano, iPod touch, or iPhone as well as the older video iPods! ReplayTV's intuitive menus, ease of navigation, powerful searches, and our channel guide that works the way you want have always been popular. And now we are offering a tuner, antenna, and remote for an all-in-one solution. ReplayTV Personal HD is a terrific hardware/software solution at a great price."

The complete package includes a USB 2.0 ATSC/NTSC hybrid tuner, HD antenna, remote control, USB cable, software CD, Quickstart guide and one year of ReplayTV Electronic Program Guide service (annual EPG fee thereafter: \$19.95 per year). ReplayTV Personal HD is slated for shipment this fall.

Complete Hardware/Software HD DVR Solution for the PC!

The all-inclusive ReplayTV Personal HD package includes a powerful, easy-to-install USB 2.0 ATSC/NTSC hybrid tuner that requires no additional power and provides off-air HDTV reception*.

The included remote control provides easy access to the intuitive ReplayTV on-screen interface and all of the system's powerful search features, and stores nicely in a PC-MCIA slot.

Most importantly, the system's reliable, easy-to-use software, including useful ReplayTV features such as "overlap manager" and show-based recording, ensures that a user's favorite shows will be available for enjoying anytime!

Among the many advanced features included in ReplayTV Personal HD are:

- **Integrated iPod Support:** With the new iPod support, users can watch high-def television via their Apple TV or take programs with them for viewing anytime anywhere via many popular models of the iPod including the iPhone.
- **Multiple-Tuner Support:** Multiple shows can be recorded at the same time if additional tuners are installed (not included). In addition to the included ReplayTV tuner, ReplayTV Personal HD also supports leading tuners from Hauppauge, ATI, and Pinnacle.
- **Smart Channel Guide:** ReplayTV Personal HD makes the Channel Guide work *for* you. You can place your favorite channels at the top of the guide so you can easily and quickly see what's playing on them. You can always tell what's being recorded because the time bar features a record indicator so you can plan what else you want to watch or record – with absolutely no guesswork.
- **Powerful Search Features:** ReplayTV Personal HD makes finding compelling content a breeze. Find your shows within seconds, such as primetime shows, season premieres, and finales. Easily capture shows that feature favorite actors, directors, and genres. ReplayTV Personal HD organizes shows by airing, making it easy and quick to pick your favorite series to record.
- **Recorded Shows:** ReplayTV's innovative Recorded Shows screen presents the latest shows you've recorded -- What's New -- right along with all your episodes grouped by show. This organizing principle makes navigating through hundreds of shows fast and accurate. And when it's movie night, ReplayTV organizes all recorded movies under one tab.

Availability and Pricing

ReplayTV Personal HD will be distributed at major online retailers and direct from ReplayTV. It can be purchased for the suggested retail price of \$99.95., which includes a ReplayTV high-definition USB tuner with dual tuner support.

ReplayTV Personal HD is compatible with terrestrial antenna, most analog cable and select digital cable and satellite set-top boxes.
